### Continuous assessment

Passing score for the whole course is 5/10.

Assistance to lectures and practical session is compulsory unless justified absence.

Students who do not reach the passing score via continuous assessment will be able to do so in the extraordinary examination.

### Global assessment

Global assessment is based on assistance to lectures, practical sessions. Students will need to attain a score of 5 or above to pass the course.

Students who do not reach the passing score via continuous assessment will be able to do so in the extraordinary examination.

## Extraordinary global assessment

Extraordinary assessment is based on assistance to lectures, practical sessions. Students will need to attain a score of 5 or above to pass the course.

Students will be qualified through continuous evaluation by default. According to the Normativa de Evaluación del Aprendizaje de la Universidad Politécnica de Madrid, students willing to renounce to continuous evaluation must send an email via Moodle to the coordinator three weeks before ending the course.

Evaluation will assess if students have acquired all the competences of the subject. Thus, evaluation through final assessment will be carried out considering all the evaluation techniques used in continuous evaluation (EX, ET, TG, etc.), and will be celebrated in the exam period approved by Junta de Escuela for the current academic semester and year. Evaluation activities that assess learning outcomes that cannot be evaluated through a single exam can be carried out along the semester.

Extraordinary examination will be carried out exclusively by the final examination method.
